## What is Wage Theft?

Not getting paid for all the hours you worked, or not getting paid for your overtime hours, or not even getting paid minimum wage!

In what has been described as “the crime wave no one talks about,” billions of dollars worth of wages are stolen from millions of workers in the United States every year—a grand theft that exceeds every other larceny category. Even the Economic Policy Foundation, a business-funded think tank, has estimated that companies annually steal an incredible \$19 billion in unpaid overtime.

Please join us for part of a nationwide series of actions around the issue of Wage Theft.

It’s a crime that directly threatens the 99%!
